

You can use the sales material included however you wish but it is recommended you leave in any references to me.

The reason being is I prove my earnings and this should help with sales. I will not be selling this eBook again on eBay so you will have no competition from me.

I would recommend you simply list this eBook as a store inventory item and sell it for \$10.00 a copy, just as I did.

That way only one sale covers your fees for a year. Easy money if you do it right.
